INDEX TO VOLUME CLXII.

AUTHORS.

Adams, Z. B. The importance of the vertical or articular processes of the vertebra in the production of congenital scoliosis, 569.

Balch, F. G. A case of cholecystenterostomy, 173.
Barney, J. Dellinger. Varicocele: an analysis of four hundred and three cases, 350.
Barton, W. M. Elimination of hexamethylenamine by the mucous membrane of the middle ear and nasal sinuses, 896.
Blakely, David N. A case of alcoholic cirrhosis in a boy of four years, 245.
Boos, W. F., and Harmer, Torr Wagner. The so-called Cammidge test, 821.
Boos, W. F. The hospital dietitian, 386. Experiences with digipuratum, 173.
Brackett, E. G., Bradford, E. H., Lovett, R. W., Thorndike, Augustus, Soutter, Robert, and Osgood, Robert. Methods of treatment in infantile paralysis, 881.
Brewster, G. W. W. Report of twenty cases of vaginal drainage for pelvic inflammation, 817.
Briggs, L. Vernon. Restraint instead of treatment. A relic of medieval times in our present hospitals for the insane, 347.
Brown, Lloyd T. Growing pains. A possible mechanical explanation, 424; the cause of gastroptosis and enteroptosis with their possible importance as a causative factor in the rheumatoid diseases, 695.

Cabot, Richard C. The influence of race on the infant mortality of Boston in 1909, 199.
Cannon, W. B. The correlation of the digestive functions, 97.
Clark, J. Payson. A case of leontiasis ossea, 216.
Codman, E. A. Case of mesenteric thrombosis; resection of intestine; end-to end anastomosis. Recovery, 355; depressed fracture of the malar bone, a simple method of reduction, 532.
Connolly, John M. Some results of the work of the committee on milk and baby hygiene in behalf of babies, 127.
Cornwall, Andrew J. Extreme talipes equinus, 252.
Coues, W. P. Tubercular peritonitis with symptoms simulating the "acute abdomen," 357; the results of the clinical throat examination of two hundred and twelve school children, 215.
Cumston, Charles G. The symptomatology and differential diagnosis of tuberculosis of the cecum, 204; the symptomatology, diagnosis and treatment of primary apyogenous angiocholitis, 72.
Cunningham, John H., Jr. The influence of the operation of resection of the kidney upon the function of the organ (a) when the kidney wound is closed by sutures; (b) when the kidney wound is drained; (a) by a rubber tube; (b) by gauze, 16; death following rectal anesthesia in a patient with amebic dysentery, 387.

Davis, Lincoln. Stone in lower end of ureter, 175.
Dearborn, George V. N. Physiology versus anatomy, 599.
Deaver, John B. The diagnosis and treatment of peritonitis of the upper abdomen, 485.
Dennett, D. C. Sixteen cases of puerperal toxemia, 210.
Denny, Francis P. The need of instruction and experience in nursing as part of medical education, 596.
Derby, George D. Why the "optometry" legislation should not pass, 250.
Donley, John E. Stray thoughts on the history of Medicine, 247.

Eastman, Theodore J. Periodical hemoptysis, 320.
Emerson, Francis Patten. The responsibility of the general practitioner and the specialist in the prevention of deafness, 343.
Emmons, A. B., 2d. The diagnostic value of the search for spirocheta pallida in the umbilical cord of the newborn, 640.

Feiss, Henry O. The height of flat-foot plates, 780.
Fitzgerald, J. G. Discussion of psychic and somatic dying of septicemia: note upon experimental guinea-pig infection with staphylococcus albus, 452.
Fitzsimmons, Henry. Technic for taking casts for flat-foot plate, 782.
Floyd, Cleaveland. The tuberculin treatment of dispensary patients, 1.
Forbes, A. Mackenzie. The place of braces in the treatment of weak, pronated and flat feet, with especial reference to a simple method for the preparation of the plaster cast on which they are fashioned, 280.
Frothingham, Channing, Jr. Recent advances in the treatment of graves' disease, 591.

Giddings, Harold G. Intestinal perorations of unusual etiology, 604.
Gifford, John H. Report of a case of death from H.M.C. anesthesia, 139.
Gilpatrick, R. H. Cæsarean section in placenta previa and puerperal eclampsia, 707; treatment of emphysematous gangrene due to bacillus aerogenes capsulatus, 744.
Goddu, Louis A. O. Typhoid spine.
Goodall, Harry W. Chronic primary intussusception in the adult 445, 491.
Goldthwait, Joel E. The cause of gastroptosis and enteroptosis with their possible importance as a causative factor in the rheumatoid diseases, 695.
Green, Charles M. A case of spontaneous complete rupture of the uterus in labor at term; laparatomy; uterine suture; subsequent full-term normal labor, 669.
Green, Robert M. Blood pressure in the toxemias of pregnancy, 561.
Greene, D. Crosby, Jr. The transplantation of cartilage in the correction of deformities of the nose, 354.

Hanson, Wm. C. The health of young persons in Massachusetts factories, 313.
Harmer, Torr Wagner. The so-called cammidge test, 821.
Harrison, P. W. Proctoclysis, 641.
Hartwell H. F. The therapeutic administration of tuberculin in surgical tuberculosis, 5 the treatment of infections of the urinary tract with bacterial vaccines, 409.
Hawes, John B., 2d. The present status of the anti-tuberculosis campaign in Massachusetts, 704; the tuberculin treatment of dispensary patients, 1.
Henry, J. G. Two cases of surgery of the kidney; I. prolapse of the kidney through the inguinal canal; II. fracture of the kidney, 426.
Hawes, Henry F. The treatment of acute dysentery by intestinal irrigation with a 5% solution of nitrate of silver, 530; the examination of the feces in clinical work, 101.
Heald, David. The Harvard Medical School in 1788–89, 517.
Howland, John. Circulatory failure in the acute infections of children; causes and treatment, 627.
Hubbard, J. C. Uterine constriction bands complicating labor, 458.
Hunt, Ernest L. A case of bullet wound; unusual complications and death four months after the injury; being a partial account of the case of Mass. v. S., 1906, superior court, Worcester, Mass., 499.
Hurley, J. J. Local anesthesia (Neumann) in ear surgery, 380.
Hutchins, Henry T. The reproduction of pain as a means of making differential diagnoses, 40.

Inglis, H. J. Acute edema of the larynx following etherization for forceps delivery; report of a case, 746.

Johnson, F. W. Tetanus: seat of infection in the uterus, 461; imperforate hymen, 604.
Jones, Fred E. Report of case of corrosive sublimate poisoning, 139

Kagan, Samuel H. Nuclear classification of the neutrophile leucocytes and its relation to disease, 709.
Keyes, E. L., Jr. Non-tubercular renal infections, 307.
Kimpton, A. R. The diagnosis and treatment of intussusception, 131.
Knapp, Philip Coombs. The rehabilitation of neurasthenia, 269.

Lahey, Frank H. Report of a case of bier's vein anesthesia; (for operation upon a brachial aneurism), 782.
Legg, Arthur T. An obscure affection of the hip-joint 202.
Lewis, Joseph S. Suggestion: the mainspring of hypnotism and psychotherapy, 165.
Loring, Robert G. Why the "optometry" legislation should not pass, 250.
Lothrop, Oliver A. Some observations on the late results obtained by the submucous resection of the nasal septum, 638; tonsillectomy with special reference to recent points in technic, 737.
Lovett, Robert W. The treatment of paralytic deformities, 479.
Lovett, R. W., Bradford, E. H., Brackett, C. G., Thorndike, Augustus, Soutter, Robert, and Osgood, Robert. Methods of treatment in infantile paralysis, 881.
Lynch, Jerome M. The test diet nitrogen and sulphate partitions as an aid to diagnosis in intestinal disturbances, 35.

MacAusland, W. R. Arthrodesis and its application in infantile paralysis of the foot, 853; extreme talipes equinus, 252.
Manton, W. P. The aftermath of childbirth, 277.
Marks, H. K. Experiences with digipuratum, 173.
Mason, N. R. The treatment of cervical rigidity in obstetrics, 524; the strength of the uterine scar after Cæserean section; an experimental and clinical study, 65; acute edema of the larynx following etherization for forceps delivery; report of a case, 746.
Mays, Thomas J. Crotalin, an improved method for its administration, 46.
McDonald, Wm. Two cases of brain tumor, 283.
McMechan, F. Hoeffer. Anesthesia for prostatectomy, 273.
Medalia, Leon S. Opsonic therapy in pyorrhea alveolaris, 42; the therapeutic value of lactic acid bacteria, 739.
Miner, W. W. Unsuspected diabetes, a cause of rapidly fatal coma, 136.
Morris, J. Stewart. Pneumococcus vaccine in a case of meningitis of the spine and base of brain following capillary bronchitis; recovery, 535.
Morse, John Lovett. Jaundice in the newborn; some illustrative cases, 238.
Morse, Mary Elizabeth. The use of formalized cultures of typhoid bacilli for the agglutination test, 77.
Mumford, James G. Graves' disease, 731.
Munro, John C. Dyspepsia and indigestion viewed from a surgical standpoint, 843; ectopia of the kidney, with report of cases, 415.
Murphy, Fred T. A case of intussusception, 141; case of cerebral hemorrhage in the new-born; delivered by operation, 642.
Myerson, Abraham. A case of falsetto voice and its relation to spastic aphonia, 170.

Neff, Irwin H. Treatment of inebriety, 809.
Newburgh, L. H. Experiences with digipuratum, 173.
Newell, F. S. A case of eclampsia treated by direct transfusion, 213.

Ochsner, A. J. Prevention and inhibition of peritonitis with especial reference to the harm done by cathartics in incipient peritonitis, 161.
Ordway, Thomas. On the teaching of pathology by the case system, supplemented by gross and microscopic specimens, 777.

Osgood, Robert, Soutter, Robert, Thorndike, Augustus, Brackett, E. G., Lovett, R. W., and Bradford, E. H. Methods of treatment in infantile paralysis, 881.
Otis, Edward O. The mother and the child in the tuberculosis problem, 233.

Paine, A. Elliott. An unusual case of suicide, 141.
Palmer, Lewis M. A case of wonderful vitality, 140.
Paul, W. E. A case of myasthenia gravis, 281.
Pederson, James. Non-obstructive anuria, 8.
Penhallow, D. Pearce. Avulsion of the patellar tendon with report of a case, 532.
Powers, Charles A. Recurrence in scar seventeen and one-half years ofter the removal of cancer of the breast, 114.

Quimby, Wm. C. Prostatectomy for recurring prostatic inflammation, 745.

Reik, Henry O. The effect of tobacco on the ear and upper respiratory tract, 856.
Richards, E. T. F. Hemorrhagic disease of the newborn, report of a case, 47.
Richie, Edith M. The influence of race on the infant mortality of Boston in 1909.
Risley, Edw. H. Post-operative pneumonia, 75.
Robey, Wm. H. J. Exophthalmic goitre, 589.
Rosenau, M. J. The uses of fear in preventive medicine, 305.
Rushmore, Stephen. Cancer of the uterus: a clinical study, 784.

Scudder, C. L. Anthrax of the neck; hypernephoma of kidney, 822.
Sears, George G. Cardiac syphilis, 805; some clinical aspects of pulmonary embolism, 558.
Sever, James Warren. Tuberculosis of the shoulder in children, 383; tuberculosis of the elbow, 666.
Shattuck, F. C. Case I. Innominate aneurism with marked subsidence of external tumor under rest, and painless destruction of rib. Case II. A cardiac condition of difficult determination, congenital? Acquired? Both? Of syphilitic origin? 816.
Shattuck, George Cheever. Three cases of sporadic elephantiasis of the lymphatic type, 107.
Simmons, Channing C. A report on the hundred and seventy-two patients treated at the Massachusetts General Hospital for inguinal hernia in the year 1905, with the end results of the operations, 847; two cases illustrating the use of bone clamps in ununited fractures, 174.
Smith, Richard M. Scarlet fever prophylaxis with streptococcus vaccine, 242.
Smith, William H. A case of cardiac dropsy of long standing treated by digipuratum and diuretin, 173.
Southard, E. E. Discussion of psychic and Somatic factors in a case of acute delirium dying of sapticemia; note upon experimental guinea-pig infection with staphylococcus albus, 452.
Soutter, Robert, Bradford, E. H., Lovett, R. W., Brackett, E. G., Thorndike, Augustus, and Osgood, Robert. Methods of treatment in infantile paralysis, 881.
Spooner, Lesley H. Antityphoid inoculation conducted at the Massachusetts general hospital, 37.
Spooner, J. Winthrop. Case of poisoning by mercuric bichloride, 138.
Stone, Arthur K. Tuberculous peritonitis: a plea for the treatment of peritoneal tuberculosis by hygienic rather than surgical measures, 813.
Streeter, Edward C. The therapeutic administration of tuberculin in surgical tuberculosis, 5; the treatment of infections of the urinary tract with bacterial vaccines, 409.

Talbot, Fritz B. Clinical significance of curds in infants' feces, 134; a metabolism experiment on an infant after gastro-enterostomy for congenital pyloric stenosis, 490.
Taylor, E. W. The interpretation of certain cerebral symptoms with reference to v. Monakow's theory of diaschisis, 632.
Thompson, E. C. Pain relieved by manual therapy, 460.
Thompson, W. Gilman. Modern dietetic principles: their practical application, 551.
Thorndike, Augustus, Bradford, E. H., Lovett, R. W., Brackett, E. G., Soutter, Robert, and Osgood, Robert. Methods of treatment in infantile paralysis, 881.
Tileston, Wilder. The present status of vaccine therapy, 373.
Torbert, James. Case of cerebral hemorrhage in the newborn; delivered by operation, 642.
Townsend, Charles W. A case of intussusception, 141.
Truesdale, Philemon E. Submucous fibroids, 314.
Tyrode, Maurice V. The treatment of constipation, 670.

Warren, J. Collins. Surgery in London at the beginning of the nineteenth century, as observed by an American surgeon of the old school, 767.
Watson, F. S. Obstructive calculous anuria, 12.
Whitney, Wm. F. A study of the statistics of cancer in Massachusetts for the year 1905, 673.
Whittemore, Wyman. Report of twenty cases of vaginal drainage for pelvic inflammation, 817.
Williams, Francis H. X-ray examination of a patient with stricture of the esophagus, 604.
Williams, John T. The frequency and dangers of fibroids of the uterus, 663; the strength of the uterine scar after Cæsarean section; an experimental and clinical study, 65.
Wood, B. E. Arthrodesis and its application in infantile paralysis of the foot, 853.
Woodbury, William R. Infectious diseases and the mouth, 112.
Wright, Elizabeth A. Correlation of respiration and heart beat during exercise, 417.

Young, Ernest Boyen. Hemorrhagic disease of the newborn; report of a case, 47; the frequency and dangers of fibroids of the uterus, 663.

SUBJECTS.

Agglutination Test. The use of formalized cultures of typhoid bacilli for, Morse, Mary Elizabeth, 77.
Alcoholic Cirrhosis. A case of in a boy of four years, Blakely, David N., 245.
Anatomy versus physiology, Dearborn, George V. N., 599.
Anesthesia. For prostatectomy, McMechan, F. Hoeffer, 273; local (Neumann) in ear surgery, Hurley, J. J., 380; report of a case of death from H.M.C., Gifford, John H., 139; rectal, death following, Cunningham, John H., Jr., 387.
Aneurism, innominate, Shattuck, F. C., 816.
Anthrax of the neck, Scudder, C. L., 822.
Antityphoid Inoculation. Conducted at the Massachusetts General Hospital, Spooner, Leslie H., 37.
Anuria. Non-obstructive, Pedersen, James, 8; obstructive calculous, Watson, F. S., 12.
Apyogenous Angiocholitis, Primary. The symptomatology, diagnosis and treatment of, Cumston, Charles Greene, 72.
Arthrodesis and its application in infantile paralysis of the foot, MacAusland, W. R., and Wood, B. E., 853.

Bier's Anesthesia. Report of a case of (for operation upon a brachial aneurism), Lahey, Frank H., 782.
Book Rev. Abbott, A. C., the principles of bacteriology, 467; Abrams, Albert, diagnostic therapeutics, 467; spondylotherapy, 646; Aikens, Charlotte A., clinical studies for nurses, 394; American Medical Association, handbook of therapy, 646; Arny, Henry V., principles of pharmacy, 82; Ashton, William E., a textbook on the practice of gynecology, 293; Augustin, George, history of yellow fever, 538; Ball, M. V., essentials of bacteriology 431; Ballenger, William, diseases of the nose, throat and ear 577; Ballet, Gilbert, translated by P. Campbell Smith, neuras, thenia, 151; Bander, Samuel W., medical gynecology, 81; Barnhill, John F., principles and practise of modern otology, 504; Basu, B. D., the dietetic treatment of diabetes, 223; von Baumgarten, P., and Tangl, F., annual report on progress in the knowledge of the pathogenic micro-organisms, 755; Bennett, W. H., lectures on the use of massage and early movements in recent fractures and other common surgical injuries, 683; Bishop, Louis F., heart disease, blood pressure and the Nauheim-Schott treatment, 223; Brand, Alex. T., and Keith, John R., clinical memoranda for general practitioners, 646; Brewer, George E., a textbook of surgery, 117; Bryant, Joseph D., and Buck, Albert H., American practise of surgery, vol. vi, 54; Burnet, Etienne, translated by Austin, E. E., the campaign against microbes, 577; Butler, Glentworth Reeve, the diagnostics of internal medicine, 257; Cabot, R. C., physical diagnosis, 331; Chapin, Henry Dwight, and Pisek, Roger, diseases of infants and children, 362; Clarke, John H., vital economy, 223; Collum, R. W., the practise of anesthetics, 331; Cooper, Arthur, the sexual disabilities of men and their treatment, 82; Da Costa, John Chalmers, modern surgery, general and operative, 431; Daniels, C. W., and Wilkinson, E., tropical medicine and hygiene: part I, diseases due to protozoa, 755; Deaderick, W. H., a practical study of malaria, 82; De Lee, Joseph, obstetrics, vol. v, 150; Dench, E. B., diseases of the ear, 905; De Santos, examination of the urine, 330; Dieffenbach, W. H., hydrotherapy, 755; Edwards, A. R., a treatise on the principles and practise of medicine, 293; Eisendrath, D. N., surgical diagnosis, 55; Emerson, R. L., legal medicine and toxicology, 362; Emery, W. D'Este, immunity and specific therapy, 184; Evans, David J., obstetrics: a manual for students and practitioners, 223; Ewell, M. D., a manual of medical jurisprudence for the use of students at law and of medicine, 432; Fanning, F. W., Burton the open-air treatment of pulmonary tuberculosis, 467; Freud, Sigmund, selected papers on hysteria and other psychoneuroses, 222; Fusco, Pasquale, the new medical science, or hereditary and acquired syphilis in relation to the diseases of the human body; vol. i, 614; Garceau Edgar, renal, uretrale, perirenal and adrenal tumors and actinomycosis and echinococcus of the kidney, 790; Gardiner, H. Bellamy, surgical anesthesia, 576; Grasset, Professor, and Vedel, Dr., medical consultations, 82; Gray, H. M. W., general surgical technic, 331; Greef, R., an atlas of the external diseases of the eye, 431; Hare, H. A., and Beardsley, E. J. G., the medical complications, accidents and sequels of typhoid fever and the other exanthemata, 293; Hare, H. A., a textbook of practical therapeutics, with especial reference to the application of remedial measures to disease and their employment upon a rational basis, 151; Haubold, H. A., preparatory and after-treatment in operative cases, 431; Hill, Charles, a manual of normal histology and organography, 82; Hirschman, L. J., handbook of diseases of the rectum, 871; Hirst, B. C., a textbook of obstetrics, 505; Hort, E. C., rational immunization in the treatment of pulmonary tuberculosis, 684; Hunter, William, severest anemias, vol. i, 683; Jacobs, Philip P., Russell Sage foundation: the campaign against tuberculosis in the United States, 293; Jennings, Oscar, the morphia habit and its voluntary renunciation, 646; Johnson, A. B., surgical diagnosis, 55; Keyes, E. L., diseases of the genito-urinary organs, 718; Keyes, T. B., the renewal of life, 22; Kimber, D. C., textbook of anatomy and physiology for nurses, 577; Knight. C. H., and Bryant, W. S., diseases of the nose, throat and ear, 330, Knopf, S. A., tuberculosis a preventable and curable disease, 647; Krause, Prof. Forde, surgery of the brain and spinal cord: based on personal experiences, 647; Lejars, Felix, urgent surgery, 432; Lewis, Le Roy, anatomy and physiology for nurses, 432; Locke, E. A., tuberculosis in Massachusetts, 432; Luke, T. D., a manual of natural therapy, 646; Macewen, John A. C., surgical anatomy, 330; Martin, E., surgical diagnosis, 55; McIntosh, Herbert, practical handbook of medical electricity, for students and practitioners, 647; McKenzie, R. Tait, exercise in education and medicine, 184; Meyer, Willy, and Schmieden, Victor, Bier's hyperemic treatment in surgery, medicine and the specialties; a manual of its practical application, 55; Moynihan, B. G. A., duodenal ulcer, 789; Mummer, P. Lockhart, after-treatment of operations, 717; Murphy, John B., general surgery, 683; Otis, E. O., the great white plague, tuberculosis, 717; Patch, Frank W., individual responsibility, 223; Pope, Curran, practical hydrotherapy, 504; Reeder, R. R., how two hundred children live and learn, 577; Ritchie, John W., human physiology, 394; Roberts, Henry, the philosophy of long life, 82; Robinson, Wm. J., collectanea Jacobi, collected essays, addresses, scientific papers and miscellaneous writings of A. Jacobi, M.D., 504; Saleeby, C. W., parenthood and race culture, 223; Savill, T. D., lectures on hysteria and allied vasomotor conditions, 117; Simon, W., manual of chemistry, 151; Sinclair, Wm. J., Semmelweis, his life and his doctrine, 505; Skarstrom, Wm., gymnastic Kinesiology, 646; Smith, E., some common remedies and their use in practise, 831; Starling, E. H., the fluids of the body, 151; Starr, M. A., organic and functional nervous diseases, 117; Taylor, J. J., the physician's pocket account book, 222; Todd, F. M., eradicating plague from San Francisco, 755; Treves, F., and Hutchinson, Jonathan, a manual of operative surgery, 613; Walters, F. R., the open-air or sanatorium treatment of pulmonary tuberculosis, 577; Waters, Yssabella, visiting nurses in the United States, 22; Warbasse, J. P., the conquest of disease through animal experimentation, 831; Welch, W. H., and Friedenwald, Harry, studies in rabies: collected writings of Nathaniel Garland Keirle, 614; Williams, H. W., a manual of bacteriology, 684; Winslow, C. E. A., and Winslow, A. R., the systematic relationships of the coccaceæ, 614; Witthaus, R. A., and Becker, Tracy C., medical jurisprudence, forensic medicine and toxicology, 81; Wood, Neville, spa treatment, 831; Wright, A. E., studies on immunization and their application to the diagnosis and treatment of bacterial infections, 330; Ziegler, E., general pathology, 718.
Bone Clamps. Two cases illustrating the use of in ununited fractures, Simmons, Channing C., 174.
Brain Tumor. Two cases of, McDonald, Wm., 283.
Bullet Wound. A case of; unusual complications and death four months after the injury; being a partial account of the case of Mass, v. S., 1906, superior court, Worcester, Mass., Hunt, Ernest L., 499.

Cammidge Test. The so-called, Boos, William F., and Harmer, Torr Wagner, 821.
Cancer. Recurrence in scar seventeen and one-half years after the removal of cancer of the breast, Powers, Charles A., 114; cancer of the uterus: a clinical study, Rushmore Stephen, 784; a study of the statistics of cancer in Massachusetts for the year 1905, Whitney, William F., 673.
Cardiac Condition of difficult determination, congenital? Acquired? Both? of syphilitic origin? Shattuck, F. C., 816.
Cardiac Dropsy. A case of long standing, treated by digipuratum and diuretin, Smith, William H., 173.
Cardiac Syphilis. Sears, George G., 805.
Cerebral Hemorrhage in the newborn delivered by operation, case of, Murphy, Fred T., and Torbert, James R., 642.
Cerebral Symptoms. The interpretation of with reference to v. Monakow's theory of diaschisis, Taylor, E. W., 632.
Cholecystenterostomy. A case of, Balch, F. G., 173.
Circulatory Failure in the acute infections of children. Causes and treatment, Howland, John, 627.
Clinical Meetings. Massachusetts General Hospital, 173, 816.
Congenital Scoliosis. The importance of the vertical or articular processes of the vertebra in the production of, Adams, Z. B., 569.
Constipation. The treatment of, Tyrode, Maurice Vejux, 670.
Correlation. of respiration and heart beat during exercise, Wright, Elizabeth A., 417.
Correlation of the digestive functions, The, Cannon, W. B., 97; correlation of respiration and heart beat during exercise, Wright, Elizabeth A., 417.
Crotalin, an improved method for its administration, Mays, Thomas J., 46.
Correspondence. The spread of scarlet fever, Bartlett, Fred A., 662, the case of destitute and disabled physicians, Burrage, Walter L., 267; a sanitary problem, D. C., 267; pituitary extracts in hay fever, asthma, etc., Cohen, Solomon Solis, 730; common colds, Newton, Richard Cole, 804; Brockden Brown and the yellow-fever epidemic, Colt, Henry, 549; a conference of ophthalmologists with organization officials on family physician refracting, Connor, Leartus, 729; an appetizer for phagocytes, Cumston, Charles G., 661; the gastro-intestinal tract in war, Falstaff, Napoleon, 267; the discussion of papers at society meetings, "fessus," 63; a national department of health, Gay, George W., 625; enasthesia and anesthetics, how the laws that govern anesthetics were ascertained, Hidden, William B., 879; carcinoma of the cervix, Johnson, Frederick W., 125; the United States pharmacopeial convention, Motter, Murray Galt, 267; sulphur baths at St. Michael's, Azores, Parks, Edward L., 462; resolutions for Dr. Ella L. Dexter, Pope, Emily F., 197; infant mortality in Boston. Ritchie, John, Jr., 477; Paris letter acute. adrenal insufficiency, "spectator," 32; Paris letter, hemolytic jaundice through globular fragility, S., 158; Paris letter: old Paris, treatment of senile gangrene by the hot-air process, "S," 302; Paris letter: can a man who uses only twenty remedies be a competent physician? S., 406; Paris letter: fulminating tonsillar leukemia," "S," 514 Paris letter: unrecognized cases of acute leukemia," "S," 549; Paris letter: the Doyen "premiere," "S," 659; Paris letter the diagnosis of hydatid disease, "S," 802; triumph over tuber-

culosis, Shattuck, F. C., 729; a sterilizing hopper, Washburn, F. A., 303; reports on public health, Williams, Charles Mallory, 765; the evils of tobacco, 913.

Deafness. The responsibility of the general practitioner and the specialist in the prevention of, Emerson, Francis Patten, 343.
Dermatology. Progress in, Bowen, John T., Towle, Harvey, P., 605.
Diabetes, unsuspected, a cause of rapidly fatal coma, Miner, W. W., 136.
Diet. The hospital dietitian, Boos, William F., 386; modern dietetic principles: their practical application, Thompson, W. Gilman, 551; the test diet nitrogen and sulphate partitions as an aid to diagnosis in intestinal disturbances, Lynch, Jerome Morton, 35.
Digestive Functions, the correlation of, Cannon, W. B., 97.
Digipuratum. Experiences with, Boos, W. F., Newburgh, L. H., and Marks, H. K., 173.
Dysentery. The treatment of acute intestinal irrigation with a 5% solution of nitrate of silver, Hewes, Henry F., M. D., 530.
Dyspepsia and indigestion viewed from a surgical standpoint, Munro, John C., 843.

Editorials. A clinic at the Harvard Medical School, 23; ground squirrels and bubonic plague in California, 23; the enlightenment of anti-vivisectionists, 24; physical tests for school promotion, 24; specific inoculation against typhoid fever, 56; free public lectures on medical subjects, 57; government inspection of meat, 57; bubonic plague in Ecuador, 57; further enlightenment of anti-vivisectionists, 83; annual report of the Boston City Hospital, 83; the Crocker cancer special research fund, 84; infant mortality in Germany, 85; the Boston Society for medical improvement, 85; reconstruction of medical department of Columbia University, 118; an unfortunate misunderstanding, 118; life insurance companies as preventers of disease, 119; association for the prevention of infant mortality, 119; state inspection of meat, 119; some medical charities in Boston, 152; Massachusetts Association of boards of health: decrease of mortality from phthisis, 152; a bill regarding expert testimony, 185; reasons for decrease in number of medical students, 186; further outbreaks of smallpox, 186; prosecution for public sale of drugs, 224; treatment of drunkenness in Massachusetts, 224; continued prevalence of typhoid fever, 225; relative increase of longevity, 225; tabardillo or typhus fever, 258; development of the tuberculosis campaign, 259; optometry legislation, 259; a new directory for wet-nurses, 294; "typhoid Mary" at large, 294; Boston's declining death-rate, 294; a deserving charity, 295; popular medical education at Hampton Institute, 295; annual report of Massachusetts General Hospital, 295; the observation of uncommon and common diseases among immigrants, 331; the plans for dealing with tuberculosis in Massachusetts, 332; Massachusetts tuberculosis conference, 333; the von Recklinghausen testimonial, 334; the Rockefeller foundation, 334; poverty and riches in medicine, 334; the treatment of carcinoma with the body fluid of a recovered case, 363; Massachusetts tuberculosis commission, 363; further reasons for decrease in number of medical students, 364; progress of preventive medicine, 364; rat-borne diseases, 395; smallpox and vaccination laws, 396; wise precautions and foolish fears of leprosy, 397; further methods of treating carcinoma, 397; a suggestion in behalf of the Boston Medical Library, 397; the use of Bier's cup in infections of the breast, 397; care and study of the insane, 433; care of the teeth in school children, 433; constitutionality of milk laws in Massachusetts, 434; status of typhoid in Boston, 434; a bill for a department of public health, 435; prevention of substitution and of the sale of impure or inert drugs, 435; physical training in Boston high schools, 468; visit of Professor Lange, 468; some recent food and drug decisions, 469; Brockden Brown and the yellow fever epidemic, 505; a week's bequests in charity, 506; work of the social service department of the Massachusetts General Hospital, 507; proposed new pure drug law, 507; a generation's changes, 539; laboratory diagnosis versus clinical findings, 539; study of poliomyelitis in Massachusetts, 540; school of tropical medicine in the United States, 540; vital statistics in England, 541; dirty milk and the doctor, 541; Mark Twain and Christian science, 578; the work of the cancer commission of Harvard University, 579; the study and treatment of inebriety, 580; Kissinger and yellow fever, 580; work of the instructive district nursing association, 581; the prevalence of smallpox in the United States, 615; unnecessary phthisiophobia, 615; status of the milk question in Boston, 617; the Marathon race, 617; plans of the Forsyth infirmary, 618; the congress of American physicians and surgeons, 648; national department of public health, 648; the milk situation in Boston, 649; scarlet fever in Boston, 649; death of King Edward, 650; Independence day casualties, 684; transmission of tuberculosis from fowls to animals, 685; progress of the milk strike, 686; the prevention of common colds, 719; an episode in royal obstetrics, 719; the comet and medical superstition, 719; the paradox of the tubercle bacillus, 756; death of Dr. Robert Koch, 757; reports of the milk committee, 758; medical education in America, 759; decrease of tuberculosis in New Hampshire, 759; acute and subacute syphilitic meningitides, 792; doctors and the circus, 792; the treatment of constipation by massage, 793; the Rockefeller Institute for medical research and antimeningitis serum, 794; end of the milk strike, 794; annual meeting, Massachusetts Medical Society, 832; aftermath of the milk strike, 832; some aspects of race suicide, 833; rats and pig-tails, 833; unsettled conditions of the milk question, 872; opposition to the department of public health, 872; a new electric magnifying stethoscope, 873; the safe and sane Seventeenth, 873; legislation to increase French birth-rate, 906; adiposis dolorosa in an infant, 906.
Elephantiasis. Three cases of sporadic elephantiasis of the lymphatic type, Shattuck, George Cheever, 107.
Esophagus. X-ray examination of a patient with stricture of the esophagus, Williams, Francis H., 604.
Exercise. Correlation of respiration and heart beat during, Wright, Elizabeth A., 417.

Falsetto Voice and its relation to spastic aphonia, Myerson, Abraham, 170.
Fear. The uses of in preventive medicine, Rosenau, M. J., 305.
Feces. The examination of in clinical work, Hewes, Henry F., 101.
Fibroids of the uterus: the frequency and dangers, Young, Ernest Boyen, and Williams, John T., 663.
Fibroids. Submucous, Truesdale, Phi lemon E., 314.
Flat-foot. The height of flat-foot plates, Feiss, Henry O., 780; the place of braces in the treatment of weak, pronated and flat feet, with especial reference to a simple method for the preparation of the plaster cast on which they are fashioned, Forbes, A. Mackenzie, 280; technic for taking casts for flat-foot plate, Fitzsimmons, Henry, 782.

Gangrene. Treatment of emphysematous gangrene due to bacillus aerogenes capsulatus, Gilpatrick, R. H., 744.
Goitre. Exophthalmic, Robey, William H., 589.
Graves' Disease. Mumford, James G., 731; recent advances in the treatment of Graves' disease, Frothingham, Jr., Channing, 591.
Growing Pains. A possible mechanical explanation, Brown, Lloyd T., 424.
Gynecology. Report in, Burrage, Walter L., 388.

Harvard Medical School in 1788–89. translated by Mr. David Heald, 517.
Hygiene, Health of young persons in Massachusetts factories, Hanson, William C., 313; Progress in, Hanson, Wm. C., Linenthal, H., 357.
Hemoptysis, periodical, Eastman, Theodore J., 320.
Hernia. A report on the hundred and seventy-two patients treated at the Massachusetts General Hospital for inguinal hernia in the year 1905, with the end results of the operations, Simmons, Channing C., 847.
Hip-Joint, an obscure affection of, Legg, Arthur T., 202.
History of Medicine. Stray thoughts on, Donley, John E., 247; Harvard Medical School in 1788–89; translated by Mr. David Heald, 517; surgery in London at the beginning of the nineteenth century, Warren, J. Collins, 767.
Hospital Dietitian, the, Boos, W. F., 386.
Hymen, imperforate, Johnson, F. W., 604.
Hypophysis Cerebri. Hartwell, John B., 861.

Imperforate Hymen. Johnson, F. W., 604.
Inebriety, treatment of, Neff, Irwin H., 809.
Infant Mortality, influence of race on, Cabot, Richard C., and Richie, Edith K., 199.
Infantile Paralysis. Methods of treatment, Bradford, E. H., Lovett, R. W., Brackett, E. G., Thorndike, Augustus, Soutter, Robert, Osgood, Robert, 88.
Infantile Paralysis of the Foot. Arthrodesis and its application in, MacAusland, W. R., and Wood, B. E., 853.
Innominate Aneurysm with marked subsidence of external tumor under rest and painless destruction of rib, Shattuck, F. C., 816.
Intestinal Disturbances, the test diet in, Lynch, Jerome Morley, 35.
Intestinal Perforation of unusual etiology, Giddings, Harold G., 604.
Intussusception. A case of intussusception, Townsend, Charles W., and Murphy, Fred T., 141.; the diagnosis and treatment of intussusception, Kimpton, A. R., 131; chronic primary intussusception in the adult, Goodall, Harry W., 445–491.

Jaundice in the newborn: some illustrative cases, Morse, John Lovett, 238.

Kidney. Ectopia of the kidney, with report of cases, Munro, John C., 415; the influence of the operation of resection of the kidney upon the function of the organ (A) when the kidney wound is closed by sutures: (B) when the kidney wound is drained: (a) by a rubber tube: (b) by gauze, Cunningham, John H., 16; two cases of surgery of the kidney: I. prolapse of the kidney through the inguinal canal: II, fracture of the kidney, Henry, J. G., 426.

Lactic Acid Bacteria, the therapeutic value of, Medalia, Leon S., 739.
Laryngology. The results of the clinical throat examination of two hundred and twelve school children, Coues, W. P., 215; acute edema of the larynx following etherization for forceps delivery: report of a case, Mason, Nathaniel R., and Inglis, H. J., 746; the effect of tobacco on the ear and upper respiratory tract, Reik, Henry O., 856; tonsillectomy with special reference to recent points in technic, Lothrop, Oliver A., 737.
Leontiasis Ossea, a case of, Clark, J. Payson, 216.

Malar Bone, depressed fracture of: a simple method of reduction, Codman, E. A., 532.
Manual Therapy, pain relieved by, Thompson, E. C., 460.
Medical Notes. 25, 57, 85, 119, 153, 187, 225, 260, 295, 334, 365, 398, 435, 470, 507, 541, 581, 618, 650, 686, 720, 759, 795, 834, 873.
Mesenteric Thrombosis. Resection of intestine; end-to-end anastomosis; recovery, Codman, E. A., 355.
Metabolism Experiment on an infant after gastro-enterostomy for congenital pyloric stenosis, Talbot, Fritz B., 490.
Miscellany. Factory hygiene, 32; free public lectures, 94; the international American congress of medicine and hygiene, 95; far Eastern Association of tropical medicine, 95; the Rockefeller Institute and cruelty to animals, 125; midwinter meeting of the Æsculapian club, 125; report of the committee on state and national legislation of the Massachusetts Medical Society, 195; the Massachusetts Medical Society, councillors' meeting, 196; hospital of the Massachusetts Infant Asylum: directory for wet-nurses 301; cost of city health departments, 341; report of Metropolitan sewerage commission of New York, 371; diagnosis of cholera, 371; industrial training of the insane, 405; the brown dog of Battersea, 406; a monument to Michael Servetus, 443; prevention of ophthalmia neonatorum, 443; scientific care for the defective, dependent and delinquent classes, 476; a George Washington memorial in Washington, 477; the hour of birth, 514; regulation of cold storage, 659; bacteriologist and pathologist: assistant professor of bacteriology and pathology, Philippine service, 659: a guild of physicians who are Catholics, 692; the extreme span of human life somewhere between one hundred and one hundred and ten years, 693; physicians of the seventeenth and twentieth centuries, 693; a cancer hospital, 728; open-air schools, 728; a

memorial donation for an institute of clinical research and preventive medicine, 802; the Massachusetts Medical Society, 840; Seymour Haden, 841.
v. Monakow's Theory of Diaschisis. Interpretation of cerebral symptoms with reference to, Taylor, E. W., 632.
Mouth, the, and infectious diseases, Woodbury, William R., 121.
Myasthenia Gravis, a case of, Paul, W. E., 281.

Nasal Septum. Some observations on the late results obtained by the sub-mucous resection of, Lothrop, Oliver A., 638.
Neurasthenia, the rehabilitation of, Knapp, Philip Coombs, 269.
Non-tubercular Renal Infections, Keyes, E. L., 307.
New Instruments. A simple container for the ureteral catheter, Barney, J. Dellinger, 860; a new ureteral catheter, Garceau, Edgar, 745; a simple and clean instrument for vaccination, Williams, Francis H., 210.
Nursing. The need of instruction and experience in, as part of medical education, Denny, Francis P., 596.
Nuclear Classification of the Neutrophile Leucocytes and its Relation to Disease. Kagan, Samuel H., 709.

Obituaries. J. Frank Perry, M.D., 31; George E. Woodbury, M.D., 31; William L. Faxon, M.D., 125; William Winslow Eaton, M.D., 195; William G. Macdonald, M.D., 231; Follen Cabot, M.D., 231; resolutions upon the death of Charles P. Thayer, A.M., M.D., 266; Dr. Charles F. McGahan, 266; Willard Porter Woodbury, M.D., 301; Wharton Sinkler, M.D., 405; Andrew H. Smith, M.D., 514; resolutions on the death of Dr. Follen Cabot, 587; Herbert Leslie Burrell, M.D., 624; Howard Taylor Ricketts, M.D., 657; Eugene Hodenpyl, M.D., 658; Frederick Tilden Brown, M.D., 658; resolutions of the Æsculapian Club on the death of Dr. Herbert Burrell, 658; James Bourne Ayer, M.D., 692; resolutions of the senior staff of the Boston City Hospital on the death of Dr. Herbert L. Burrell, 765; Frederick Irving Knight, M.D., 773; Charles Burnham Porter, M.D., 776; resolutions on the death of James Bourne Ayer, M.D., 801; Henry Grainger Piffard, M. D., 839; Spooner, John W., M.D., 913.
Obstetrics. Blood pressure in the toxemias of pregnancy, Green, Robert M , 561; Cæsarean section in placenta previa and puerperal eclampsia, Gilpatrick, R. H., 707; cerebral hemorrhage in the newborn, Murphy, Fred T., and Torbert, James R., 642; the treatment of cervical rigidity in obstetrics, Mason, Nathaniel R., 524; the aftermath of childbirth, Manton, W. P., 277; a case of eclampsia treated by direct transfusion, Newell, F. S., 213; report on, DeNormandie, Robert L., 142; sixteen cases of puerperal toxemia, Dennett, D. C., 210; uterine constriction bands complicating labor, Hubbard, J. C., 458; the strength of the uterine scar after Cæsarean section: an experimental and clinical study, Mason, Nathaniel R., and Williams, John T., 65; a case of spontaneous complete rupture of the uterus in labor at term: laparatomy: uterine suture: subsequent full-term normal labor, Green, Charles M., 669.
Opsonic Therapy in pyorrhea alveolaris, Medalia, Leon S., 42.
"Optometry." Why the "optometry" legislation should not pass, Derby, George S., and Loring, Robert G., 250.
Otology. The responsibility of the general practitioner and the specialist in the prevention of deafness, Emerson, Francis Patten, 343; local anesthesia (Neumann) in ear surgery, Hurley, J. J., 380.

Pain. The reproduction of as a means of making differential diagnoses, Hutchins, Henry T., 40.
Paralytic Deformities, the treatment of, Lovett, Robert W., 479.
Patellar Tendon, avulsion of, with report of a case, Penhallow, D. Pearce, 532.
Pathology. On the teaching of, by the Case system, supplemented by Gross and microscopic specimens, Ordway, Thomas, 777.
Pediatrics. Clinical significance of curds in infants' feces, Talbot, Fritz B., 134; some results of the work of the committee on milk and baby hygiene in behalf of babies, Connolly, John M., 127, hemorrhagic disease of the newborn: report of a case, Young, Ernest Boyen, 47; circulatory failure in the acute infections of children, Howland, John, 627; jaundice in the newborn, Morse, John Lovett, 238; report on, Rotch, Thos. Morgan, and Morse, John Lovett, 79, 674; methods of treatment in infantile paralysis, Bradford, E. H., Lovett, R. W., Brackett, E. G., Thorndike, Augustus, Soutter, Robert, Osgood, Robert, 881.
Pellagra. Bowen, John T., Towle, Harvey P., 605.
Peritonitis. The diagnosis and treatment of peritonitis of the upper abdomen, Deaver, John B., 485; tuberculous peritonitis: a plea for the treatment of peritoneal tuberculosis by hygienic rather than surgical measures, Stone, Arthur K., 813; prevention and inhibition of peritonitis with especial reference to the harm done by cathartics in incipient peritonitis, Ochsner, A. J., 161.
Pharmacodynamics. Progress in, Tyrode, Maurice V., 176.
Pharmacology. Elimination of hexamethylenamine by the mucous membrane of the middle ear and nasal sinuses, Barton, W. M., 896.
Physiology versus Anatomy. Dearborn, George V. N., 599.
Poisoning. Case of poisoning by mercuric bichloride, Spooner, J. Winthrop, 138; report of case of corrosive sublimate poisoning, Jones, Fred E., 139.
Post-Operative Pneumonia. Risley, Edward H., 75.
Prostatectomy, anesthesia for, McMechan, F. Hoeffer, 273; for recurring prostatic inflammation, Quinby, William C., 745.
Proctoclysis. Harrison, P. W., 641.
Progress. Progress in dermatology: pellagra, Bowen, John T., and Towle, Harvey P., 605; report in gynecology, Burrage, Walter L., 388; report on obstetries, DeNormandie, Robert L., 142; progress in hygiene, Hanson, Wm. C., and Linenthal, H., 357; progress in surgery, Hartwell, John B., 861; report on pediatrics, Rotch, Thomas Morgan, and Morse, John Lovett, 79–674; progress in pharmacodynamics and experimental therapeutics, Tyrode, Maurice Vejux, 176.
Psychic and Somatic Factors, discussion of in a case of acute delirium dying of septicemia: note upon experimental guinea-pig infection with staphylococcus albus, Southard, E. E., and Fitzgerald, J. G., 452.
Pulmonary Embolism. Some clinical aspects of, Sears, George G., 558.
Pyorrhea Alveolaris, opsonic therapy in, Medalia, Leon S., 42.

Race. The influence of on the infant mortality of Boston in 1909, Cabot, Richard C., and Richie, Edith K., 199.
Rectal Anesthesia, death following, in a patient with amebic dysentery, Cunningham, John H., Jr., 387.
Renal Infections. Non-tubercular, Keyes, E. L., 307.
Restraint instead of treatment: a relic of medieval times in our present hospitals for the insane, Briggs, L. Vernon, 347.
Rheumatoid Diseases. The cause of gastroptosis and enteroptosis with their possible importance as a causative factor in the rheumatoid diseases, Goldthwait, Joel E., and Brown, Lloyd T., 695.
Rhinology. Some observations on the late results obtained by the sub-mucous resection of the nasal septum, Lothrop, Oliver A., 638; transplantation of cartilage in the correction of deformities of the nose, Greene, D. Crosby, 354.

Scarlet Fever prophylaxis with streptococcus vaccine, Smith, Richard M., 242.
Scoliosis, congenital, Adams, Z. B., 569.
Societies. American Gastro-Enterological Association, 49; American Gynecological Society, 785, 713, 747; American Society for the Advancement of Clinical Investigation, 462, 867, 900; American Therapeutic Society, 823; Boston Society of Psychiatry and Neurology, 285; College of Physicians of Philadelphia, meeting, 361, 575, 612; Congress of American Physicians and Surgeons, 678; Medical Society of the State of New York, 502, 535; New England Branch of the American Urological Association, 19, 322; New England Otological and Laryngological Society, 644; New England Pediatric Society, 181, 253, 643; New York Academy of Medicine and the Medical Association of the Greater City of New York, 147; Philadelphia County Medical Society, meeting, 712; Southern health conference: hookworm disease, 427; Southern Surgical and Gynecological Association, 217, 255, 287; Suffolk District Medical Society, 115, 179, 392, 829; National Association for the Study of Epilepsy, 898.
Spirocheta Pallida. The diagnostic value of the search for in the umbilical cord of the newborn, Emmons, A. B., 2d, 640.
Stone in Lower End of Ureter, Davis, Lincoln, 175.
Suggestion: the mainspring of hypnotism and psychotherapy, Lewis, Joseph S., 165.
Suicide, an unusual case of, Paine, A. Elliot, 141.
Surgery in London at the beginning of the nineteenth century, as observed by an American surgeon of the old school, Warren, J. Collins, 767; progress in, Hartwell, John B., 861.
Syphilis, cardiac, Sears, George G., 805.

Talipes Equinus, extreme, MacAusland, W. R., 252.
Tetanus. Seat of infection in the uterus, Johnson, F. W., 461.
Tobacco, the effect of on the ear and upper respiratory tract, Reik, Henry O., 856.
Tonsillectomy with special reference to recent points in technic, Lothrop, Oliver A., 737.
Transplantation of Cartilage in the correction of deformities of the nose, Greene, D. Crosby, 354.
Tuberculin. The therapeutic administration of tuberculin in surgical tuberculosis, Hartwell, H. F., and Streeter, Edward C., 5; the tuberculin treatment of dispensary patients, Hawes, John B., 2d, and Floyd, Cleaveland, 1.
Tuberculosis. The present status of the anti-tuberculosis campaign in Massachusetts, Hawes, John B., 2d, 704; the symptomatology and differential diagnosis of tuberculosis of the cecum, Cumston, Charles Greene, 204; tuberculosis of the elbow, Sever, James Warren, 666; the mother and the child in the tuberculosis problem, Otis, Edward O., 233; tuberculosis of the shoulder in children, Sever, James Warren, 383; tubercular peritonitis with symptoms simulating the "acute abdomen," Coues, W. P., 357; tuberculous peritonitis, Stone, A. K., 813.
Typhoid Spine, Goddu, Louis A. O., 711.

Uterus, cancer of: a clinical study, Rushmore, Stephen, 784; fibroids of, Young, Ernest B., and Williams, John T., 663; submucous fibroids of, Truesdale, P. E., 314.

Vaccines. The treatment of infections of the urinary tract with bacterial vaccines, Hartwell, H. F., and Streeter, Edward C., 409; present status of vaccine therapy, Tileston, Wilder, 373; pneumococcus vaccine in a case of meningitis of the spine and base of brain following capillary bronchitis: recovery, Morris, J. Stewart, 535.
Vaginal Drainage for pelvic inflammation, report of twenty cases, Brewster, G. W. W., and Whittemore, Wyman, 817.
Varicocele. An analysis of four hundred and three cases, Barney, J. Dellinger, 350.
Vitality. A case of wonderful, Palmer, Lewis M., 140.

Whooping Cough, the bacillus of, Morse, John Lovett, 79.

X-Ray examination of a patient with stricture of the esophagus, Williams, Francis H., 604.
